Article II. Background, Purpose, Authority

Section 2.01 Statute and Program Authority

The TAG program was first authorized in the Pipeline Safety Improvement Act of 2002 (Public Law 107-355) and is codified at 49 U.S.C. 60130. This section, titled: "Pipeline Safety Information Grants to Communities" authorizes the Secretary of Transportation to make grants to local communities and groups of individuals (not including for-profit entities) for technical assistance relating to pipeline safety. The TAG program was reauthorized by the Pipeline Inspection, Protection, Enforcement and Safety Act of 2006 (Public Law 109-468), the Pipeline Safety, Regulatory Certainty, and Job Creation Act of 2011 (Public Law 112-90), and the Protecting Our Infrastructure of Pipelines and Enhancing Safety Act of 2016 (Public Law 114-183).

Section 2.02 Statement of Purpose

Pipeline safety is a shared responsibility and informed communities play a vital role in the safety and reliability of pipeline operations. The Pipeline Safety Information Grants to Communities: Technical Assistance Grants (TAG) provides funding to local communities and groups of individuals for technical assistance related to pipeline safety. The program also provides opportunities that strengthen the depth and quality of public participation in the safe development

and operation of pipelines in and around communities. Technical assistance is defined as engineering or other scientific analysis of pipeline safety issues.

Section 2.03 Background

Since program inception in 2009, PHMSA has awarded almost \$8 million for 178 individual technical assistance projects. TAG awards have funded a broad range of activities, including: improvement of local pipeline emergency response capabilities; improvement of safe digging or damage prevention programs; development of pipeline safety information resources; implementation of local land use practices that enhance pipeline safety; community and pipeline awareness campaigns; and, public participation in official proceedings pertaining to pipeline safety. A summary of the TAG awards, including final reports from completed grant projects, is available at http://primis.phmsa.dot.gov/tag.

Article III Expected Program Outputs

PSC expects to establish and develop grassroots based Community Pipeline Safety and Awareness Networks (CAN). Communities CAN make a difference when they learn, participate and work together to develop a safety culture based on respect, trust and confidence founded in knowledge.
